**THE ELM CITY
NURSERY CO'S
PRICE LIST FOR
1902**

General descriptive price
list.

What we have for sale and what it will cost, we believe are questions of first importance to the intending buyer. These questions are answered on the following pages : : : :

General Remarks

WE present in this catalogue even a fuller assortment than ever before.

The rapidly increasing demand for the many beautiful trees and other hardy plants which thrive in this climate, has warranted us in greatly increasing our stock, both in assortment and quantity. We believe our nurseries now contain one of the most extensive assortments to be found and we will do all in our power to give satisfaction to all who favor us with their orders.

Terms and Shipping Directions

CASH in advance or satisfactory reference from unknown parties. Five of a kind at ten rates. Special quotations on large quantities.

How We Ship

WE aim to make shipments by the most economical way for the purchaser.

Large and bulky orders are usually sent by freight. Shipments by express are advised where prompt arrival is desired, and the order is too large to go by mail. All parcels of four pounds or less can be sent anywhere in the United States at rate of eight cents per pound, by mail. We recommend this way of shipping small articles, and make special prepaid prices on mailable sizes.

Orders in New Haven and vicinity are delivered by our own wagons free.

Order Early. Do not wait until you are ready to plant before ordering, but place your order at once if possible. We will hold such orders subject to further directions if requested. The actual shipping season is so short that much is gained both to the planter and the nurseryman when orders are booked in advance of the actual shipping season.

How to Reach Us. Our nursery and office are located at EDGEWOOD, Edgewood Avenue, just beyond Edgewood Park. The Edgewood Avenue cars pass the nursery. Telephone.

Landscape Department under the direction of Mr. Ernest Francis Coe, Landscape Architect. Write for terms.

Practical Superintendence and General Planting. We have in our employ workmen competent to carry out and superintend landscape and general garden work either from plans or otherwise, also those who know how to plant trees, etc., in a proper manner. Parties wishing us to furnish such service will do well to arrange with us as early in the season as practicable.

Grading and Turfing. We have every facility for doing this work, and know how to establish fine velvety lawns.

Descriptive Catalogue. Giving descriptions of many of the plants herein listed will be mailed to all applicants.

Specimens for Immediate Effect

AT the Nursery we give special attention to growing into large sizes many kinds of fruit and ornamental trees, shrubs, vines, etc., for by their use much quicker results can be obtained than by the use of smaller stock.

We now have a limited number of fruiting sizes in Apple, Pear, Cherry, Plum and Quince trees, also many fine specimen shade trees, shrubs and roses. Particular attention is called to our large collection of specimen evergreens, ready for immediate lawn effects or for potting up for use as house decorations, both in and out. The number of these specimen plants is always more limited than of the smaller grades. A visit to the nursery is desirable where the selection of individual specimens is desired.

All orders and other communications should be addressed direct to our office.

THE ELM CITY NURSERY COMPANY

Incorporated

Edgewood, Edgewood Avenue

Electric Cars to Nursery
Telephone

New Haven, Connecticut

Ornamental

Department

We have given the latin name and also the popular or local names where possible. Local names are in *italics* and refer to the latin name. We have done this to avoid confusion.

All trees and other plants marked with the prefix *, will be sent prepaid to any address in the United States, either by mail or express at our discretion.

DECIDUOUS TREES

Evergreens, see pages 6 and 9.

Acacia, see robinia.

		Each.	Per 10.
Acer campestre (ENGLISH MAPLE).....	5 to 7 ft.	\$.75	\$ 7.00
Acer campestre (ENGLISH MAPLE).....	7 to 9 ft.	1.25	12.00
*Acer colchicum rubrum	4 to 8 in.	.25	2.25
Acer colchicum rubrum	7 to 9 ft.	1.75	
*Acer dasycarpum (SILVER MAPLE).....	6 to 12 in.	.20	1.00
Acer dasycarpum (SILVER MAPLE).....	8 to 10 ft.	1.00	9.00
Acer dasycarpum (SILVER MAPLE).....	10 to 12 ft.	1.50	8.50
Acer dasycarpum (SILVER MAPLE).....	12 to 15 ft.	2.50	22.50
Acer dasycarpum var. Wieri (WIER'S CUT LEAVED WEEPING).....	8 to 10 ft.	1.50	8.50
Acer dasycarpum var. Wieri (WIER'S CUT LEAVED WEEPING).....	10 to 12 ft.	2.00	18.00
Acer dasycarpum heterophyllum (FERN LEAVED).....	10 to 12 ft.	2.00	18.00
Acer dasycarpum heterophyllum (FERN LEAVED).....	10 to 12 ft.	2.00	18.00
Acer dasycarpum var. Turneri (TURNER'S NEW CUT LEAVED SILVER MAPLE).....	8 to 10 ft.	3.00	27.00
Acer dasycarpum var. Turneri (TURNER'S NEW CUT LEAVED SILVER MAPLE).....	10 to 12 ft.	4.00	36.00

This variety originated with us and differs from Wier's in having more deeply cut foliage, while the ribs of the leaf, leaf stem and young growth are a rich carmine.

		Each.	Per 10.
Acer monspessulanum	5 to 7 ft.	\$.75	\$ 6.75

Morus rubra var. (DOWNING'S LARGE BLACK).....	10 to 12 ft.	2.50	

Mt. ash, see pyrus.

Mulberry, see morus.

Nyssa sylvatica (TUPELO or SOUR-GUM).....	18 to 24 in.	.50	
-------------------------------------------	--------------	-----	--

Oak, see quercus.

Orange, see Aegle.

*Oxydendron aboreum (ANDROMEDA OR SORREL TREE).....	1 to 2 ft.	.30	2.70
Oxydendron aboreum (ANDROMEDA OR SORREL TREE).....	2 to 3 ft.	.75	6.75
Oxydendron aboreum (ANDROMEDA OR SORREL TREE).....	3 to 4 ft.	1.50	13.50

Paonia Moutan, see shrubs.

Paulonia imperialis	1 to 2 ft.	.30	1.70
Paulonia imperialis	3 to 4 ft.	.75	

Pavia, see aesculus.

Peach, see prunus Persica.

Phellodendron amurense	2 to 3 ft.	.50	
Phellodendron amurense	12 to 13 ft.	2.50	

Plane, see platanus.

Platanus orientalis (ORIENTAL BUTTON-BALL).....	2 to 3 ft.	.30	2.70
Platanus orientalis (ORIENTAL BUTTON-BALL).....	3 to 5 ft.	.50	4.50
Platanus orientalis (ORIENTAL BUTTON-BALL).....	7 to 8 ft.	.75	
Platanus orientalis (ORIENTAL BUTTON-BALL).....	8 to 10 ft.	1.50	

Plums, see prunus.

Poplar, see populus.

Populus alba (EUROPEAN WHITE POPLAR).....	4 to 6 ft.	.50	
Populus alba var. nivea vel acerifolia.....	6 to 10 in.	.20	1.80

Populus alba var. pyramidalis (BOLLEANA).....	3 to 5 ft.	.50	
Populus deltoidea (CAROLINA POPLAR).....	5 to 7 ft.	.75	

Populus deltoidea (CAROLINA POPLAR).....	6 to 8 ft.	.75	
Populus deltoidea (CAROLINA POPLAR).....	10 to 12 ft.	1.00	9.00
Populus deltoidea (CAROLINA POPLAR).....	12 to 15 ft.	1.50	13.50

Populus deltoidea var. aurea (VAN GEERT'S).....	6 to 8 ft.	.75	
Populus niger var. pyramidalis (LOMBARDY).....	8 to 10 ft.	1.25	

Populus niger var. pyramidalis (LOMBARDY).....	3 to 5 ft.	.35	2.15
Populus tremuloides var. pendula.....	9 to 11 ft.	.75	6.75

Prunus cerasifera ver. atropurpurea (PISSARD'S).....	8 to 10 ft.	3.00	
Prunus cerasifera var. atropurpurea (PISSARD'S).....	6 to 8 ft.	.50	4.50

Prunus cerasifera var. rosea plena.....	8 to 10 ft.	1.50	
Prunus pendula (JAPAN WEEPING CHERRY).....	6 to 10 in.	.50	4.50

Prunus persica var. fl. pl. rubra (DOUBLE ROSE FL. PEACH).....	4 to 5 ft.	.75	
Prunus persica var. fl. pl. rubra (DOUBLE CRIMSON PEACH).....	3 to 4 ft.	.50	4.50

Prunus triloba	3 to 4 ft.	.50	4.50
Ptelea trifoliata (HOP-TREE).....	5 to 6 ft.	.50	

*Ptelea trifoliata var. aurea.....	6 to 8 in.	.25	2.25
Pyrus coronaria var. fl. pl. (BECHTEL'S CRABAPPLE).....	1 to 2 ft.	.30	2.70

Pyrus coronaria var. fl. pl. (BECHTEL'S CRABAPPLE).....	4 to 5 ft.	.75	6.75
Pyrus floribunda (JAPAN PINK FL. CRABAPPLE)	6 to 8 ft.	1.50	13.50
Pyrus floribunda var. Parkmanni.....	5 to 7 ft.	.75	6.75

Pyrus floribunda var. Parkmanni.....	1 to 2 ft.	.30	2.70
Pyrus floribunda var. Parkmanni.....	3 to 5 ft.	.75	6.75
Pyrus floribunda var. atrosanguineum.....	5 to 7 ft.	.75	6.75

Pyrus spectabilis var. Kaido.....	5 to 7 ft.	.75	6.75
*Pyrus Americana (AMERICAN MT. ASH).....	1 to 2 ft.	.20	1.80
Pyrus Malus, var. fl. pl. rosea.....	5 to 6 ft.	.75	6.75

Ulmus americana (WHITE ELM).....	4 to 6 ft.	.50	4.50
*Ulmus americana (WHITE ELM).....	15 to 25 ft.	3.00 to 15.00	
Ulmus campestris (EUROPEAN ELM).....	3 to 4 ft.	.50	4.50
Ulmus campestris var. pendula (CAMPERDOWN).....	6 to 7 ft.	1.50	
 <i>Walnut, see juglans.</i>			
<i>Willow, see salix.</i>			
<i>Yellow wood, see cladrastis.</i>			
Zanthoxylum americanum (PRICKLY ASH).....	3 to 4 ft.	.50	4.50

NOTE—To adequately describe and illustrate the many kinds of trees and other plants listed in this Catalogue would require several large volumes.

There are now easily available many authoritative works treating these subjects exhaustively, and the intelligent seeker for information will look in this direction for disinterested information rather than consider the often attempted Catalogue descriptions too seriously. We issue a Catalogue of recent publications on horticultural subjects which will be sent to those who apply.

THE ELM CITY NURSERY COMPANY

EVERGREEN TREES.

All the following Trees and other Plants marked with the prefix *, will be sent prepaid to any address in the United States, either by mail or express, at our discretion.

		Each.	Per 10.
Abies cephalonica.....	1 to 2 ft.	.75	6.75
*Abies concolor	6 to 12 in.	.50	4.50

<i>Blue spruce, see picea.</i>			
<i>Diota, see thuja.</i>			
<i>Cedar, see cedrus and juniper.</i>			
Cedrus atlantica (MT. ATLAS CEDAR).....	1 to 2 ft.	.75	
*Chamaecyparis lawsoniana (LAWSON'S CYPRESS).....	8 to 12 in.	.25	2.25
*Chamaecyparis obtusa (OBTUSE JAPAN CYPRESS).....	6 to 12 in.	.35	2.15
Chamaecyparis obtusa (OBTUSE JAPAN CYPRESS).....	1 to 2 ft.	.50	4.50
Chamaecyparis obtusa (OBTUSE JAPAN CYPRESS).....	2 to 5 ft.	2.00 to 15.00	
Chamaecyparis obtusa var. gracilis aurea.....	1 to 2 ft.	1.00	
Chamaecyparis obtusa var. gracilis aurea.....	2 to 3 ft.	2.00	
*Chamaecyparis obtuse var. nana.....	4 to 5 in.	.50	4.50
Chamaecyparis obtuse var. nana.....	6 to 10 in.	1.00	9.00
Chamaecyparis obtuse var. nana.....	10 to 14 in.	2.00	18.00
*Chamaecyparis obtuse var. nana aurea.....	2 to 3 ft.	3.00 to 15.00	
Chamaecyparis obtuse var. nana aurea.....	6 to 8 in.	.50	4.50
*Chamaecyparis pisifera (PEA-FRUITED JAPAN CYPRESS).....	12 to 15 in.	2.00	18.00
Chamaecyparis pisifera var. aurea.....	6 to 8 in.	.25	2.25
*Chamaecyparis var. aurea lutescens.....	2 to 3 ft.	.75	
Chamaecyparis pisifera var. nana variegata.....	8 to 12 in.	.75	6.75
The following are classed as garden hybrids:			
*Chamaecyparis filifera pendula.....	6 to 8 in.	.25	2.25
Chamaecyparis filifera pendula.....	1 to 2 ft.	.75	6.75
*Chamaecyparis leptoclada.....	3 to 10 ft.	3.00 to 15.00	
*Chamaecyparis lycopodioides.....	6 to 8 in.	.30	2.70
*Chamaecyparis plumosa (PLUME LIKE).....	6 to 8 in.	.30	2.70
Chamaecyparis plumosa (PLUME LIKE).....	1 to 2 ft.	.50	4.50
Chamaecyparis plumosa (PLUME LIKE).....	2 to 3 ft.	1.50	13.00
*Chamaecyparis plumosa argentea (SILVER TIP).....	3 to 8 ft.	3.00 to 10.00	
Chamaecyparis plumosa argentea (SILVER TIP).....	6 to 8 in.	.30	2.70
Chamaecyparis plumosa argentea (SILVER TIP).....	8 to 12 in.	1.00	9.00
Chamaecyparis plumosa argentea (SILVER TIP).....	12 to 18 in.	1.50	
Chamaecyparis plumosa aurea (GOLDEN TIP).....	6 to 8 in.	.25	2.25
Chamaecyparis plumosa aurea (GOLDEN TIP).....	12 to 18 in.	.75	6.75
Chamaecyparis plumosa aurea (GOLDEN TIP).....	18 to 24 in.	1.50	
Chamaecyparis plumosa aurea (GOLDEN TIP).....	2 to 8 ft.	2.00 to 15.00	
*Chamaecyparis squarrosa veitchii.....	6 to 8 in.	.25	2.25
Chamaecyparis squarrosa veitchii.....	8 to 12 in.	.50	4.50
Chamaecyparis squarrosa veitchii.....	2 to 3 ft.	1.50	
*Chamaecyparis thyoides (WHITE CEDAR).....	6 to 8 in.	.25	2.25
<i>Cypress, see chamaecyparis.</i>			
<i>Douglas spruce, see pseudotsuga.</i>			
<i>Fir, see abies.</i>			
<i>Hemlock, see tsuga.</i>			
<i>Holly, see ilex.</i>			
<i>Juniper, see Juniperus.</i>			
*Ilex crenata (JAPAN HOLLY).....	2 to 3 in.	.15	1.35
Ilex crenata (JAPAN HOLLY).....	12 to 15 in.	.75	6.75
Ilex crenata (JAPAN HOLLY).....	15 to 20 in.	1.00	9.00
Ilex crenata (JAPAN HOLLY).....	20 to 24 in.	2.50	
Ilex crenata (JAPAN HOLLY).....	24 to 30 in.	3.00	
Ilex opaca (AMERICAN HOLLY).....	2 to 3 ft.	.75	6.75
Ilex opaca (AMERICAN HOLLY).....	3 to 4 ft.	1.50	
*Juniperus communis (COMMON JUNIPER).....	6 to 8 in.	.15	1.35
Juniperus communis (COMMON JUNIPER).....	3 to 10 ft.	3.00 to 15.00	
Juniperus communis var. aurea	12 to 18 in.	.50	
*Juniperus communis var. fastigiata (IRISH).....	6 to 8 in.	.20	1.80
Juniperus communis var. fastigiata (IRISH).....	3 to 4 ft.	1.00	
Juniperus chinensis (CHINESE JUPITER).....	6 to 8 in.	.30	2.70
Juniperus japonica	2 to 3 ft.	\$2.00 to \$4.00	
Juniperus macrocarpa.....	2 to 3 ft.	.75	
*Juniperus prostrata	6 to 8 in.	.25	2.25
*Juniperus virginiana (RED CEDAR)	6 to 10 in.	.25	2.25
Juniperus virginiana (RED CEDAR)	2 to 6 ft.	\$1.00 to \$3.00	
Juniperus virginiana var. glauca	2 to 3 ft.	1.00	
*Picea alba (WHITE SPRUCE).....	6 to 8 in.	.25	2.25
Picea alba (WHITE SPRUCE)	12 to 18 in.	.50	4.50
Picea alba (WHITE SPRUCE)	18 to 24 in.	.75	6.75
Picea alba (WHITE SPRUCE)	2 to 3 ft.	1.25	11.25

HARDY HERBACEOUS PLANTS.

All the following Trees and other Plants marked with the prefix *, will be sent prepaid to any address in the United States, either by mail or express, at our discretion.

The letters F. G. indicate that the plants are strong field grown and too large to be sent by mail. In ordering these large sizes state the limit you wish to pay and we will select plants according. The large sizes in many instances give quicker results.

		Each.	Per 10.

NOTE—A visit to the nursery will oftentimes assist one in making selections, especially is this true where specimen plants are required. It will afford the opportunity to see how we grow and handle our plants, and our business methods generally. We know that our ultimate business success is dependent on the success of the stock we send out. Visitors welcome every day of the year but Sundays.

THE ELM CITY NURSERY COMPANY

ROSES.

All the following Trees and other Plants marked with the prefix *, will be sent prepaid to any address in the United States, either by mail or express at our discretion.

DAHLIAS.—(Continued).

CACTUS VARIETIES.

Austin Cannell, Light Crimson.	Henry Cannell, Dark Crimson.
Bertha Mauley, Scarlet, overlaid Crimson.	Iona, Rich Terra-cotta.
Bridesmaid, Delicate Rose.	Strahlen Krone, Intense Cardinal Red.
Ernest Glasse, Rich Magenta.	

DECORATIVE VARIETIES.

Admiral Dewey, Brilliant Imperial Purple.	Miss Barry, Deep Rosy Lake.
Black Prince, Velvety Maroon Black.	Mrs. Geo. Read, Pure White.
Celestine, Yellow and Orange.	Mrs. E. C. Monroe, Large pale Yellow.
C. W. Bruton, Large clear Yellow.	Nymphaea, Flesh Pink.
Constancy, Rich Reddish Amber.	Oban, Rosy Lavender.
Honorina, Large Yellow, suffused Red.	Sensation, White, tipped Purple.
Kynerith, Bright Red.	Sundew, Bright Orange Salmon.
Little Dick, Clear Yellow.	Wm. Agnew, Dazzling, Scarlet.
Lucius Crammock, Purplish Red.	Wm. Pierce, Rich Butter Yellow.
Iridescent, Orange Red, overlaid Blue.	Zulu, The Black Dahlia.
Mrs. Hawkins, Rich Sulphur.	

FANCY VARIETIES.

Elegans, Rosy Purple, tipped White.	Lady Jane Ellis, White, veined Pink and Purple.
Jarkosky, Crimson, Yellow and White.	Prince Alexander, Pink, striped Dark Red.
Keystone, Pink, striped Crimson.	S. Sickman, Maroon, tipped White.
Leiberheimer, Crimson, tipped White.	Striped Banner, Crimson, tipped White.

SHOW VARIETIES.

Adolph Pefferhorn, Purplish Crimson.	Model of Perfection, Rosy Lilac.
A. D. Livoni, Seashell Pink.	Mrs. Dexter, Salmon.
Amazon, Yellow, tipped Red.	Orlando, Buff, shaded Gold.
Blumenfalter, Rosy Lavender.	Psyche, Pale Primrose.
Emily, White, suffused Lavender.	Paul's Scarlet, Brightest Scarlet.
Golden Ball, Golden Yellow.	Red Head, Dwarf, deep Red.
Hope, White, tipped Purple.	Saturn, Deep Crimson.
James Stephens, Orange Scarlet.	Snow, White, fine form.
Marchioness of Bath, Straw, edged Pink.	Topsy, Pleasing Red.
Miss Ruth, Pale Pink.	Wm. Fawcett, Light Yellow.
May Oakleigh, Deep Lilac.	Yellow Standard, Pure Yellow.

POMPON VARIETIES.

Aillitt's Imperial, White.	Prince Charming, Rose.
Little Phillip, White, tipped Maroon.	Snow Clad, Purest White.
Miss Lou Kramer, Yellow, tipped Crimson.	

SINGLE VARIETIES.

Bruce, Pure Yellow.	Man Friday, Dark Maroon.
Flame, Brilliant Red.	Miss Roberts, Pure Yellow.
Harrie Fisher, Purple, base of petal Creamy White.	Nance, Crimson and Pink.
Holyoke, Bronze Yellow, very large.	Pereril, Sulphur Yellow.
Kenilworth, Dark Crimson.	Rosebank Cardinal, Scarlet.
Isaac Pitman, Purple Maroon.	Sunningdale Yellow, Deep Yellow.
John Cowan, Maroon.	Victoria, Pure White.
Lady Helen, White with Yellow stripes.	Thomas Becket, Crimson Lake.

In addition to the above list we have upwards of 200 other varieties. We will send the list of these other kinds to those who apply.

LAWN GRASS SEED.

The grass seed offered are the very best the market affords. You will note that we sell it by the pound.

This is made possible by modern recleaning machines, which separates the seed from much of the chaff. If to be sent by mail add 8 cents per lb.

EDGEWOOD MIXTURE. Composed of a variety of grasses, so as to produce a permanent, velvety lawn under varying conditions and in the quickest time. Especially valuable for seeding about newly graded lawn areas, pleasure grounds, golf links, etc. It is just the mixture to use in re-seeding the bare places that will appear in established lawns, and for thickening up thin lawns.

QUANTITIES TO USE.

1 lb.	package	for 400 square feet.	Price per lb., 25 cts.; 3 lbs., 65 cts.;
5 "	"	" 2,000 "	5 lbs., \$1.00; 10 lbs., \$1.85; 15 lbs., \$2.75;
10 "	bag	" 4,000 "	25 lbs., \$4.25; 50 lbs., \$8.25; 100 lbs., \$16.00.
15 "	"	" 6,000 "	
25 "	"	" one-fourth acre.	
50 "	"	" one-half "	
100 "	"	" one "	

LAWN GRASS SEED, GOOD MIXTURE. Composed of the finer grade of grasses, and in such variety as to produce good results throughout the season. Per pound 20 cts.; 3 lbs., 50 cts.; 5 lbs., 80 cts.; 10 lbs., \$1.50; 15 lbs., \$2.10; (use same quantities advised for our "Edgewood Mixture").

SHADY PLACE MIXTURE. Composed of varieties specially suited for shady places. Prices and amount to use same as our "Edgewood Mixture."

KENTUCKY BLUE GRASS. Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass only is magnificent; it takes longer, however, to get it established.

Fancy recleaned seed. Per lb., 20 cts.; 3 lbs., 50 cts.; bushel (14 lbs.), \$2.00.

RED TOP GRASS. A valuable native, permanent grass, as a mixture in meadows, pastures or lawns, growing in almost any soil, moist or dry, and standing our hot climate.

Fancy recleaned. Pure seed. Price per lb., 25 cts.; 5 lbs., \$1.00.

RHODE ISLAND BENT GRASS. A valuable grass for lawns. Price per lb., 25 cts.; 5 lbs., \$1.00.

LAWNS.

Every home grounds, however large or small, where there is any space not taken up by the house, walks and drives, has its lawn areas. In fact, we learn to look upon the lawn as of first importance in every layout of grounds, and it is not only very attractive in itself, but is the means of uniting the other features which make grounds about a place interesting.

If it is an ideal lawn it must be thick and velvety in texture and dark rich green in color.

If your lawn does not come up to these requirements it is probably because the ground lacks fertility. There is no better time to give a lawn a good fertilizing than in the early spring before much growth begins.

The list of fertilizers on page 24 are all good for the purpose and have their many friends. Do not be misled by the difference in price to conclude one is necessarily more expensive than another, in fact the difference in cost is usually in proportion to their actual value as a fertilizer.

NOTE—In making prices for this Catalogue we have endeavored to scale them as low as is consistent with the production and sale of first class stock, (the only kind the buyer can afford to consider.) We are however at all times ready to give special prices on lists of special sizes, especially when large purchases are contemplated. All inquiries will receive our prompt and careful attention.

GRAFTING WAX. 1/4 lb., 10c.; 1/2 lb., 15c.; 1 lb., 25c.

POTTING SOIL. Special mixture for window boxes and pot plants. 1/2 bushel, 50c.; 90c. per bushel.

TREE LABELS. Wood, 25c. per 100; \$1.80 per 1,000. Copper, indestructible, \$1.50 per 100.

TREE PROTECTORS. Several styles.

TREE PRUNERS. Henry's 10-foot

pole, \$1.50 each.

PRUNING SHEARS. Schothorn's, 95c.

RAPHIA, for tying, 20c. per lb.; 5 lbs., 75c.

BRASS GARDEN AND SPRAY PUMP. See complete catalogue telling when and what to spray, with descriptions of what to do it with, and prices, sent free to applicants.

Certificate of Inspection. Each order send out is accompanied by Inspectors certificate.

How to Improve the LAWN

A Rich Green Velvet Lawn and How to Maintain it by Using Our EDGEWOOD BRAND Canada Hard-wood Ashes

Why Lawns Fail. Lawns generally fail on account of a lack of food. Seldom, if ever, does the ordinary soil contain sufficient to meet the needs of the grass for any length of time. Even when it does, the first few years of the new lawn's growth will exhaust the nourishing elements and starvation of the grass surely commences.

The Way to Prevent Failure. The best way to make the soil rich and thus give the grass the desired food, is by giving it a dressing of our CANADA UNLEACHED HARD-WOOD ASHES. Just the right proportion of the fertilizing elements the land needs is contained in them. The rich green, velvety appearance will be restored to the lawn and new life imparted to half-starved trees, shrubs, etc.

Quick Results. The beneficial effect resulting from the use of our brand is immediate and the marked improvement in health and vigor is readily seen.

Real Fertilizing Value. Besides a good proportion of Potash and Phosphoric Acid, both valuable plant foods, these Canada Unleached Hard-wood Ashes contain a liberal amount of Wood Lime. This latter element is specially valuable in renewing and sweetening land which has become stiff and sour from the too frequent application of stable manure, or from other causes. At the same time it destroys that mossy growth found under trees.

Better Fruit and Larger Crops. Improved quality of fruit and better crops are the natural result of the use of Canada Unleached Hard-wood Ashes. Specially good for strawberries and cabbage.

Economy. Prof. Kedzie, chemist to the Agricultural College of Michigan, figures the value of the available fertilizing elements of Canada Unleached Hard-wood Ashes, if purchased at lowest wholesale market rates, to be \$20.00 a ton.

Why Ours are the Best. Our Canada Unleached Hard-wood Ashes are specially collected and every care is exercised in packing and shipping. They are made in Canada from the hard woods only. We guarantee every pound to be pure and up to the required standard of value as a fertilizer.

The Amount Needed. Spread evenly from one to two tons to an acre, according to the condition of the soil, or, for small lawns, 100 to 150 pounds to 1,000 square feet of sod. Less quantity will be needed the second year.

Prices. We put them up in 50 and 100 pound bags; and barrels weighing 200 pounds; and can ship to any distance. 50 pounds for \$1.00; 100 pounds for \$1.50; 200 pounds for \$2.00; one ton, \$18.00. Even less prices on car load lots in bulk, barrels, or bags, given on application.

Free Sample. Send for a sample trial package. It's free and will give you some idea of the cleanliness of this fertilizer.

Other fertilizers—see page 24.

Fall Planting.

Whoever intends to transplant trees or other plants naturally wishes to do so at the most suitable time, when possible—that is at a time when the plant or plants in question will receive the least shock by the moving. There are many sorts of plants which can be transplanted at any time, others that seem to be so constituted that special care at special times is required to get the best results.

As nurserymen we get much practical experience in this matter of transplanting, especially of hardy trees and other hardy plants and we are convinced that the following classes of plants can be set out to special advantage at the times noted.

September.

Evergreen-trees, azaleas, rhododendrons, most hardy herbaceous plants, such as paeonies, iris, phlox, larkspur, etc., tree paeonies, currants, strawberry plants.

October.

All of the above, also all deciduous fruit and ornamental trees, shrubs, vines, roses, etc., whose foliage has matured, also Holland bulbs and other hardy lilies.

November.

All the above noted and all deciduous trees with the possible exception of tulip and birch trees which seem to do better planted in the Spring.

December.

Very often we have this month comparatively free from freezing weather in which case about all deciduous fruit and ornamental trees, shrubs, vines, roses, etc., etc., can be planted to advantage.

There are a number of exceptions to the general rule and we are always glad to give advice to those who ask for it.

We publish annually a very complete catalogue of our trees and other plants. This catalogue is compiled with great care, the latest botanical classifications being used as well as the popular names. We believe all who are interested in hardy plants will find this catalogue useful and interesting. Copies sent free to all who apply.

Quality.

Buying trees and other plants is much like buying other merchandise in this respect—we very justly seek to obtain the best for the money invested. In no other line of merchandise, however, is the question of *superior quality* of more vital importance than with nursery stock, or so difficult for the buyer to determine. Quality not only depends upon stock being well grown, vigorous and healthy, but to an important degree upon the care with which it is dug, handled when out of the ground and the manner with which it is packed and delivered. This shows plainly that the quality of stock the purchaser receives depends to a large degree upon the integrity of the nurseryman and his business facilities. Appreciating this important fact, it has been our constant endeavor to so position ourselves that we could handle our rapidly increasing business with facilities which make it certain that we can guarantee our customers the all important consideration, *quality*.

Holland Bulbs.

Most of the following bulbs can be planted out of doors any time in the fall even as late as December, if the ground is free from frost and a fine display of bloom will appear the following spring. If desired for winter forcing they should be planted as soon as procured in suitable pots or boxes. We issue an instructive circular giving full information as to how bulbs should be planted and treated to get best results. This circular can be had of us for the asking.

Named Single Hyacinths.

Price, 8 cents each, 80 cents per dozen, \$6.00 per 100
Baron Van Thuyll. Fine pink, compact truss, early.
Charles Dickens. Large compact truss, porcelain blue.
General Pelissier. Deep scarlet, compact truss, very early.
Gertrude. Fine bright red, compact truss.
Giganthea. Fine pink, very large and compact truss.
Baroness Van Thuyll. Pure white, compact truss.
L'Innocence. Pure white.
Queen of Blues. Light blue, large compact truss.
Czar Peter. Finest porcelain blue, very large truss.
Marie. Rich, dark blue, early.

Double Hyacinths.

Bouquet Royal. Pink, large truss.
Bouquet Tendre. Dark red.
Prince of Orange. Dark rose, early.
Bloksberg. Porcelain blue.
Bouquet Orange. Orange yellow.

Hyacinths. (In separate colors.)

Chiefly used for Out-door Planting.

1902(?)

Our Special Offering Four New Garden Plants of Unquestioned Merit.

New Hardy Garden Rose Soleil d'Or (Golden Sun.)

The first of a new race of roses, originated by M. Pernet-Ducher. It is the result of a cross between the well-known Persian Yellow and the Hybrid Perpetual, Antoine Ducher, and is characterized by M. Pernet as a perpetual flowering variety. We append the description from the originator:

"This magnificent variety, like the Persian Yellow is perfectly hardy. It retains a good deal of the character of the Persian Yellow, the bark of the wood being reddish, the thorns very fine, the foliage more ample, and the leaves of a beautiful clear green, are close together. Its growth is robust, very vigorous, making plants three feet in height. The flowers are large, full and globular, measuring 3½ inches across, and fragrant; buds conical shaped; color superb, varying from gold and orange-yellow to reddish-gold, shaded with nasturtium red. The color stands the sun well." This should be a very valuable rose.

Price strong field grown plants \$1.00 each, per 10, \$8.50.
Lighter grade plants 75 cts. each, per 10, \$6.25.

New Climbing Witchuriana Rose Dorothy Perkins.

In this rose we have an ideal companion for the now universally popular Crimson Rambler. This rose, if possible, is even a more vigorous grower than the Crimson, has a far more brilliant glossy, green foliage, which is retained late into the fall, and the blooms which are produced in the greatest possible profusion, are of that clear, silvery, lively pink, so much sought for in a hardy rose. This rose is sure to be a great favorite.

Heavy field grown plants, \$1.00 each, \$8.50 per 10.
Lighter grade plants, \$.50 each, \$4.25 per 10.

New Hardy Garden Phlox Coquelicot.

The French word for poppy; so called on account of its brilliant color—bright orange-scarlet—almost the exact shade of an oriental poppy. Exceedingly brilliant, being the brightest phlox yet introduced.

Price strong field grown 25 cts. each, \$2.25 per 10.
Lighter grade, 15 cts. each, \$2.25 per 10.

New Hardy Garden Daisy Shasta.

These wonderful daisies of which a great deal has been written in the horticultural press the last year, are the work of Mr. Luther Burbank of California, to whom we are indebted for so many fine introductions. Flowers are of the purest glistening white, of enormous size—about four inches in diameter—and are borne on long, strong, stiff, wiry stems, about two feet in length. The flowers are produced in the greatest profusion, plants remaining in bloom for several months. They are perfectly hardy perennials, blooming better and more abundantly each season, and will make a valuable addition to our list of hardy perennials on account of the abundance of flowers produced and their wonderful size. For cutting, the flowers are very effective. Prof. Bailey of Cornell University, who has seen this growing in Mr. Burbank's grounds in California, states, "If it bears out its promise in other climates, it will be joy to the garden."

This last summer it has been in bloom at the nursery, and is fully up to our anticipations. Mr. Burbank states that more admiration has been bestowed on this Shasta daisy by visitors than upon any other flowering plant growing on his grounds, and with good reasons, for to-day no other flowers can compare with them for usefulness. Strong field plants, 50 cts. each, \$4.50 per 10.
Lighter grade plants, 25 cts. each, \$2.25 per 10.

Special Offer.

One each of the above novelties.	Large size, \$2.50
" " " "	Lighter " 1.50
Two " " " "	Large " 4.50
" " " " "	Lighter " 2.50

NOTE. Many other new plants as well as about all of the better known ones are listed in our general catalogue. Sent to you free, if you apply—
